Hello everyone—Attached are my comments on the noncancer hazard sections. It was a good job, and my comments are minor. Congratulations!—Vincent

**Importance:** High

The revised **NON-cancer hazard sections** of the BaP document are attached for your review. Note that even though only the cancer hazard has been revised here, the other sections are also retained so that page and Table numberings are not messed up. Only pages 1-1 to 1-64 and 1-95 to 1-97 are to be reviewed.

Thanks to the team for the hard work! Have a great weekend!
